ELECTRONIC DISCOVERY

THE STAKES ARE HIGH

Getting eDiscovery wrong can be very costly. Sanctions, fines and even judgments are being imposed with increasing regularity against parties and attorneys that fail to comply with their eDiscovery obligations. But even spending large sums of money on eDiscovery is no guarantee that the job will be done properly.

THE BEST OF BOTH WORLDS

Protek delivers both excellent performance and value.

Protek's seasoned digital attorneys and investigators understand how eDiscovery impacts litigation. While others often see bits and bytes as dollar signs, Protek's highest priority is building enduring client relationships through superior service.

"Protek's expert eDiscovery team and services allowed us to focus on litigating rather than babysitting our eD vendor. They delivered impeccable results while saving our client more than half a million dollars. We will gladly be calling Protek again."
