**Protek International's Keith Chval to Deliver CLE Webinar for the Missouri Bar Association**

*Chval to deliver "Electronic Discovery: What Every Attorney Needs to Know"*

(CHICAGO, IL) November 15, 2012 – Keith G. Chval, co-founder of Protek International, Inc., and former Chief of the Illinois Attorney General's High Tech Crimes Bureau, will host a CLE-eligible webinar on electronic discovery for the Missouri Bar Association.

The free CLE-eligible online webinar titled: **"Electronic Discovery: What Every Attorney Needs to Know"** explores how in today's electronic world, every attorney and every organization must be prepared for the day that they are required to preserve, review and produce electronic information. In this unique webinar, electronic evidence and high-tech crimes expert Keith Chval will explain how attorneys inevitably will be faced with preservation, review and production obligations in the form of third-party subpoenas, law enforcement demands and regulatory inquiries into data breaches and the like.

**DETAILS AND AGENDA**

DATE Thursday, November 29 at 12:00 pm to 2:00 pm CST

FEES No cost to attend.

**ABOUT THE SPEAKER:**

Keith Chval is truly one of the pioneers in digital law. He was the first-ever Chief of the High Tech and Computer Crime Unit in the Illinois Attorney General's Office, designing and implementing one of the very first units of its kind in the country. Under Keith's seven years as Chief, the Unit boasted a 100 percent conviction rate. Keith is co-founder of Protek International, Inc. ([www.protekintl.com](http://www.protekintl.com)), a rapidly growing firm offering world-class electronic data discovery, computer forensic, investigative and consulting services. A past president of the Midwest Chapter of the High Technology Crime Investigation Association, Keith is an adjunct professor of law at The John Marshall Law School, where he has taught a number of courses, including "eDiscovery, Digital Evidence and Computer Forensics." Keith has been asked to share his expertise in collaborative efforts with associations at the forefront of digital evidence and law including the Secret Service's Electronic Crimes Task Force, the International Association of Computer Investigative Specialists, and working groups under the auspices of the National Institute of Justice, the National White Collar Crimes Institute, and the American Prosecutors Research Institute charged with developing and promoting standards for the examination and courtroom presentation of digital evidence. He has written and presented dozens of times on subjects ranging from authenticating on-line communications to protecting businesses from computer crime to "the CSI effect" on computer forensics and computer investigations.
